

POMEGRANATE TEA

Pomegranate tea is a wonderful blend of red, white, and green tea with pomegranate juice added to it. It has great health benefits, but The FDA prohibits Shaklee from making medicinal claims regarding the product.....but if you do your research, you will discover a tea that you will want to drink every day due to its long list of benefits.

Shaklee refers to it as the “Liquid Oomph”. It is an extraordinary drink that is safe, natural, healthy and an effective alternative for boosting energy...and with only 5 calories per drink mix, which you can use in either hot or cold water.

Red, white and Matcha teas are ranked as leading health-giving substances in traditional Chinese medicine.

Red Tea Extract is known as “The Miracle Tea” or “Long Life Tea”.

Matcha Green Tea Powder is Japan’s highest grade of green tea (the greener than green superfood)! It has an antioxidant blend.

White Tea Extract is the least processed form of tea

They have been known for centuries to have many positive properties, such as:

Anti-microbial

Immunostimulatory (stimulates the immune system)

Anti-carcinogenic

Anti-inflammatory

Protective against cardiovascular disease

Gives energy

Fat loss stimulator.

As you will see, there are some incredible health benefits in each “tea stick” that is part of the Cinch Diet. You can carry them in your pocket, purse or briefcase. You do not want to be without it!

They have been known for centuries to have many positive properties, such as:

Provides detoxifying properties

Provides antioxidant properties and guards cellular tissue against toxic substances.

Causes fat to become soluble

Increases the production of bile in the liver (less likely to develop gallstones).

Critical for brain development, it is used to treat anxiety, epilepsy, hyperactivity, poor brain function and seizures.

Critical for eye health. Guards against retinal degeneration, and contains the amino acid taurine, which reduces the risk of macular degeneration.

Stabilizes cell membranes in electrically active tissues such as the brain and heart. In the heart it strengthens the heart muscle and helps stabilize arrhythmias by keeping potassium and magnesium inside the cells and keeping excess sodium out.

Helps regulate blood pressure and reduces serum cholesterol levels.

Acts as a diuretic, without the side effects of pharmaceutical diuretics.

Reduces symptoms of Type 1 or insulin-dependant diabetes by strengthening the beta cells in the pancreas.

Helps people with cystic fibrosis to digest fats more successfully.

Provides respiratory protection and is useful in the treatment of asthma.

The red tea reduces aging of the skin, muscles, internal organs and brain. It also has the anti-oxidant properties of the green tea.

It is beneficial in treating insomnia, irritability, headaches, cataracts, nervous tension & eczema,

Contains anti-oxidants that protect against free radical damage that can lead to cancer, heart attack, & stroke.
